

## PROCESS GUIDE

We offer more than 20 different processes for fabrics and wallcoverings, created to enhance, strengthen and protect your material.

### **AcrylicBac™**

Your fabric - back coated with our commercial grade water-based solution engineered for wallcovering.

### **ArmorFlex™**

Your fabric - surface treated with our commercial caliber water & stain repellent; then back coated with a breathable urethane coating, both incorporating antimicrobials.

### **CustomSeal™**

Your fabric - treated with our commercial grade stain repellent solutions.

### **CustomSeal WP™**

Your wallpaper - treated with our commercial grade stain repellent solutions that are specifically engineered for wallpaper

### **DraperyBac™**

Your fabric - back laminated with our super soft flame retardant suede drapery lining.

### **EradiCote™**

Your fabric - back coated with our commercial grade water based fire retardant solution engineered for upholstery fabrics.

### **FabricBac™**

Your fabric - back laminated with our 100% polyester, light weight satin.

### **FireBloc™**

Your fabric - back laminated with our active, non-flammable fire barrier material.

### **FlameProof™**

Your fabric - treated with our commercial grade water-based fire retardant solution.

### **FoamBac™** - Upholstery & Wallcovering

Your fabric - back laminated with one of our many types of commercial grade foams.

### **KnitBac™**

Your fabric - back laminated with our poly/cotton jersey knit.

### **MicroBloc™**

Your fabric - back laminated with our antimicrobial barrier vinyl.

### **NonWovenBac™**

Your fabric - back laminated with our commercial grade breathable nonwoven engineered for wallcovering.

### **PaperBac™**

Your fabric - back laminated with our commercial grade strippable paper engineered for wallcovering.

### **Placemats**

Your fabric - surface laminated with our commercial grade heavy duty clear matte vinyl film and back laminated with 1/16" impact absorbent foam.

### **ShadeBac™** [for laminated roller shades]

Your fabric - back laminated with our 100% blackout shade backing.

### **Tablecloths**

Your fabric - surface laminated with our commercial grade heavy duty clear matte vinyl film and sewn to your specifications.

### **Vinylizing**

Your fabric - surface laminated with our commercial grade heavy duty clear matte vinyl film.

### **Vinylizing WP™**

Your wallpaper - surface laminated with our commercial grade heavy duty clear matte vinyl film.

### **Vinylizing WP-FR™** [with Flame Retardant]

Your wallpaper - same process as Vinylizing for wallpaper but with added flame retardant inhibitors to help meet wallcovering fire codes.
